

Core Files

- /index.php - Main site homepage
- /login.php - User login page
- /login_header.php - Login page header
- /login_footer.php - Login page footer
- /logout.php - Logout handler
- /register.php - User registration page
- /menu.php - Main navigation menu
- /header.php - Main site header
- /header_basic.php - Simplified header template
- /footer.php - Main site footer
- /footer_basic.php - Simplified footer template
- /functions.php - Core site functions
- /settings.php - User settings page
- /pro.php - Pro features page
- /save.php - Data saving handler
- /save-groups.php - Group data saving
- /save-users.php - User data saving

Admin Files

Main Admin Pages

- /admin/index.php - Admin dashboard
- /admin/require.php - Common includes file
- /admin/header.php - Admin header template
- /admin/header_logic.php - Admin header logic
- /admin/footer.php - Admin footer template
- /admin/topmenu.php - Top navigation menu
- /admin/style.css - Admin styling
- /admin/favicon.ico - Site icon

User Management

- /admin/users.php - User management page
- /admin/newuser.php - Create new user page
- /admin/deleteuser.php - User deletion handler
- /admin/userdata.php - User data management
- /admin/verify.php - Account verification

Group Management

- /admin/groups.php - Group management page
- /admin/groups2.php - Alternative group management (Inactive)
- /admin/newgroup.php - Create new group page
- /admin/deletegroup.php - Group deletion handler

Case Management

- /admin/cases.php - Case listing page
- /admin/cases_detail.php - Individual case details view
- /admin/cases_detail_succinct.php - Simplified case details view
- /admin/cases_summary.php - Case summary view
- /admin/delete_case.php - Case deletion handler

System Management

- /admin/data.php - Data management page
- /admin/settings.php - Admin settings page
- /admin/statistics.php - Usage statistics page (Inactive)
- /admin/monitor.php – Monitor example demo (Inactive)
- /admin/operations.php - System operations page (Inactive)
- /admin/overview.php - System overview page (Inactive)
- /admin/phpinfo.php - PHP configuration display (Debug only)

Admin JavaScript

- /admin/js/scripts-admin.js - Main admin panel JavaScript
- /admin/js/compact.php - Compact view JavaScript
- /admin/js/filter-no-cases.php - Filter for users without cases
- /admin/js/license-status.js - License status management
- /admin/js/search-filter-cases.js - Case search functionality
- /admin/js/search-filter-users.js - User search functionality

Admin Includes

- /admin/inc/debug.inc.php - Debug utility functions
- /admin/inc/header_logic.inc.php - Admin header processing
- /admin/inc/home_logic.inc.php - Admin homepage logic
- /admin/inc/session_logic.inc.php - Admin session management
- /admin/inc/sorting.php - Table sorting functions
- /admin/inc/profile_picture_admin.php - Admin profile picture handling
- /admin/inc/upload_profile_picture_admin.php - Admin profile picture uploader
- /admin/inc/recent_cases.php - Shows recent cases on admin dashboard
- /admin/inc/update-case.php - Case data update handler
- /admin/inc/update-comments.php - Case comments update handler
- /admin/inc/update-demo-user.php - Demo user update handler
- /admin/inc/update-group.php - Group update handler
- /admin/inc/update-user-role.php - User role update handler
- /admin/inc/update-user.php - User update handler

Admin Utilities

- /admin/hash/PasswordHash.php - Password hashing library
- /admin/hash/user-man.php - User management page
- /admin/hash/pwqcheck.php - Password quality check
- /admin/cache/overview_data_super_SuperAdministrator.json - Cached data

API Endpoints

- /api/case_data.php - Case data provider
- /api/case_datahandler.php - Case data processing
- /api/case_management.php - Case management functions
- /api/case_switcher.js - Case switching JavaScript
- /api/convert_cases_to_json.php - Conversion utility
- /api/demo_role.php - Demo user role management
- /api/get-group-details.php - Group data retrieval
- /api/get-pro-history.php - Pro subscription history
- /api/get-user-details.php - User data retrieval
- /api/get_case_data.php - Case data API endpoint
- /api/get_case_details.php - Case details API endpoint
- /api/get_pro_group.php - Pro group data retrieval
- /api/get_pro_status.php - Pro status API endpoint
- /api/get_user_cases.php - User cases API endpoint
- /api/index.php - API directory index (Inactive)
- /api/pro_features.php - Pro feature management
- /api/revert-pro-status.php - Pro status reversion handler
- /api/save_case_data.php - Case data saving endpoint
- /api/save_current_case.php - Current case saving
- /api/set-demo-role.php - Demo role setter
- /api/sync_passwords.php - Password synchronization (Maintenance)
- /api/terminate_session.php - Session termination endpoint
- /api/terminate_session_php.php - Another session terminator (Inactive)
- /api/toggle_case_visibility.php - Case visibility toggle
- /api/update-group-status.php - Group status updater
- /api/update-pro-status.php - Pro status updater
- /api/update-user-pro-status.php - User pro status updater
- /api/update-user-role.php - User role updater
- /api/view_case.php - Case viewer API endpoint
- /api/debug_log.txt - Debug log file

Application Files

App Core

- /app/case_data/ - JSON case definition files
- /app/cases_updated/ - Updated case JavaScript files
- /app/hemoWaveforms/ - Hemodynamic waveform definitions
- /app/respWaveforms/ - Respiratory waveform definitions
- /app/images/ - Application images
- /app/sounds/ - WAV sound files
- /app/index.php - Empty file for security (Inactive)

App Styles

Anesthesia Simulator 7 Documentation – Everplex – March 2025

- /app/styles/anesthsim.css - Simulation UI styling
- /app/styles/fa-6.6.0-all.min.css - Font Awesome icons
- /app/styles/index.php - Empty file for security (Inactive)

App Scripts

- /app/scripts/AnesthCode.js - Core initialization and globals
- /app/scripts/AboutAnesthSim7.js - Help text content
- /app/scripts/Default.js - Default parameter values
- /app/scripts/DrugInfo.js - Drug definitions
- /app/scripts/IvAdmin.js - IV administration handling
- /app/scripts/ModelsAndFSM.js - Model and state code
- /app/scripts/Recorder.js - Recording functionality
- /app/scripts/UserControl.js - User interface controls
- /app/scripts/Waveform.js - Waveform rendering code
- /app/scripts/prototype.js - Prototype.js framework
- /app/scripts/jquery.js - Duplicate jQuery (Inactive)
- /app/scripts/index.php - Empty file for security (Inactive)

App JS Libraries

- /app/js/libs/jquery.js - jQuery library
- /app/js/libs/index.php - Empty file for security (Inactive)
- /app/js/userdata/userdata.js - User data handling
- /app/js/userdata/index.php - Empty file for security (Inactive)

Classes

User & Group Classes

- /classes/users/Users.class.php - User class definition
- /classes/users/Users.class.php.future-update - Future user class update (Inactive)
- /classes/users/index.php - Empty file for security (Inactive)
- /classes/group/Group.class.php - Group class definition

Utility Classes

- /classes/utility/MySQL.class.php - MySQL database wrapper
- /classes/utility/Format.class.php - Data formatting utilities
- /classes/utility/Validator.class.php - Input validation class
- /classes/utility/class-phpass.class.php - Password hashing library
- /classes/utility/class-phpass.class.php.old - Old password hashing (Inactive)

Configuration Files

- /configs/general.config.php - Global configuration
- /configs/mysql.config.php - Database configuration
- /configs/case_management.php - Case management config
- /configs/version.conf - Version configuration
- /configs/site.webmanifest - Progressive web app manifest

- /configs/index.php - Empty file for security (Inactive)

CSS Styles

- /css/style.css - Main application styles
- /css/breadcrumbs.css - Breadcrumb navigation styles
- /css/loader.css - Loading animation styles
- /css/dev.css - Development environment styles

JavaScript

- /js/scripts.js - Main JavaScript functionality
- /js/scripts_app.js - App-specific JavaScript
- /js/scripts_pages.js - Page-specific JavaScript
- /js/flowmeter.js - Flowmeter UI component
- /js/perf.js - Performance monitoring (Debug only)
- /js/screen-warning.js - Screen size warning

Includes

- /includes/include_all.inc.php – Global includes file
- /includes/admin_functions.php - Admin utility functions
- /includes/admin_settings.php - Admin settings functions
- /includes/contact_admin.php - Admin contact form
- /includes/delete_profile_picture.php - Profile picture deletion
- /includes/id_gen.php - ID generator
- /includes/profile_functions.php - Profile management functions
- /includes/profile_picture.php - Profile picture handler
- /includes/remove_profile_picture.php - Profile picture removal
- /includes/upload_profile_picture.php - Profile picture uploader
- /includes/session.php - Session management
- /includes/session_manager.php - Advanced session management
- /includes/super_admin.php - Super admin functions
- /includes/user_settings.php - User settings management
- /includes/user_settings_functions.php - User settings functions
- /includes/index.php - Empty file for security (Inactive)

Other Files

WP Integration (Inactive)

- /includes/wp/id_gen_wp.php - WP ID generator (Inactive)
- /includes/wp/profile_picture_wp.php - WP profile picture handler (Inactive)
- /includes/wp/user_settings_wp.php - WP user settings (Inactive)

Images

- /images/icons - Icon image files
- /images/logo - Logo image files

Anesthesia Simulator 7 Documentation – Everplex – March 2025

- /images/profiles - User profile pictures
- /images/favicon.ico - Site icon
- /images/index.php - Empty file for security (Inactive)

Special Directories

- /actions/user/user_a.php - User authentication controller
- /.well-known/acme-challenge - SSL certificate verification
- /cgi-bin - Empty CGI scripts directory (Inactive)
